About Me

I am a student pursuing a dual degree in Computer Engineering and Business Administration at the University of Granada.

Personal Statement

I am passionate about expanding my knowledge in various fields, including physics, mathematics, medicine, and computer engineering. I am eager to learn and grow in these areas, and I am currently working on my curriculum to better present my skills and experiences.

Education

University of Granada	2022 — Present
<i>Dual Degree in Computer Engineering and Business Administration</i>	
Core studies include software development, data structures, databases, operating systems, project management, economics, finance, and business strategy.	

I.E.S. Alquivira	2015 — 2022
High School Diploma with focus on science and technology.	

Princesa Sofia	2009 — 2015
Primary education.	

Experience

As a student currently pursuing a dual degree in Computer Engineering and Business Administration, I am eager to gain practical experience in the field. Although I do not have professional work experience yet, I am highly motivated to learn and apply my knowledge in real-world scenarios. I am actively seeking opportunities to intern or work on projects that will allow me to develop my skills and gain valuable experience. My academic background has provided me with a strong foundation in various areas, including software development, data analysis, and project management. I am confident that my dedication and enthusiasm will make me a valuable asset to any team. I really love studying and learning a lot through my own way. Thanks to that, I know other programming languages and more which you can search in my web.

Projects

I have a personal website hosted on GitHub Pages where I upload various projects, LaTeX documents, and notes that I create during my studies. This website serves as both a portfolio and a repository of my academic and personal projects. You can visit my website at elblogdeismael.github.io to explore my work in more detail.
